

Exercise 7.2 – Template-Driven Forms

Instructions

Complete the following

1. Using Angular CLI, create a new application under week-7 and name it <yourLastName>-template-forms.
2. Recreate the Template-Drive Form Example, given the following
3. Requirements
 - Material Design navbar
 - Material Design side-nav
 - Material Design card (login form)
 - Material Design form controls
4. Wireframe

The wireframe shows a web application layout. At the top is a horizontal navbar. On the left side is a vertical side navigation bar. The main content area contains a card with the title "Login Form". Inside the card, there are four form controls: a text input for "Username::", a text input for "SSN:", a text input for "Password:", and a text input for "Confirm password:". A "Submit" button is located at the bottom right of the card.

5. Take a screenshot of the application running in a browser
