Exercise 2.3 – Two-Way Binding

Instructions
Complete the following:
1. Using Angular CLI, create a new project under week two's directory and name it <yourLastName>-two-way-binding.
2. Recreate the two-way-binding example using your own message and styles
3. Style requirements
   a. Top navbar
   b. Styled form
   c. Highlighted two-way binding message
   d. Centered container (the form must be centered on the page)
4. Take a screenshot of the application running in a browser
