**Assignment 5.4 – Flex-Layout**
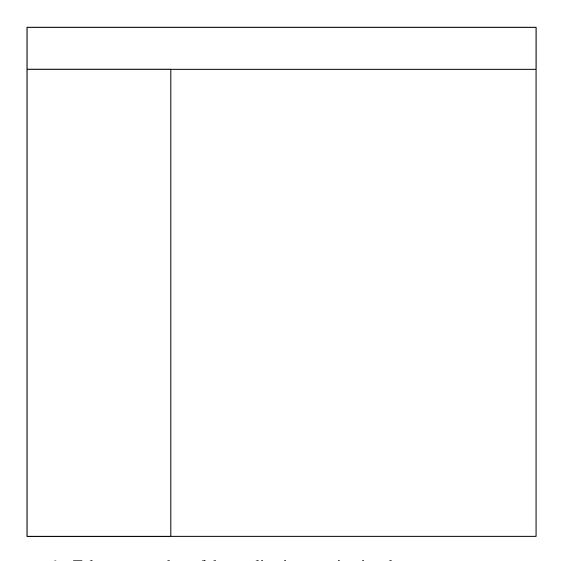

Instructions
Complete the following
1. Using Angular CLI, create a new application under week-5 and name it
   <yourLastName>-md-in-action
2. With the knowledge gained from the examples provided in exercise 5.2, exercise 5.3, and
   assignment 5.4, create a single page application with a material login form, material
   navbar, and flex-layout.
   a. Essentially you are combining the examples into a single page application
3. Requirements
   a. Choose your own material theme
   b. HomeComponent with message
   c. LoginComponent (material card and login form)
4. Layout Wireframe (Login Form)

5. Layout Wireframe (HomeComponent)

6. Take a screenshot of the application running in a browser.
