Exercise 4.3 – Handling Form Events with Observables

Instructions

Complete the following

- Using Angular CLI, create a new application under week-4 and name it <yourLastName>-form-control.
- Recreate the Observable Example using your own styles and layout.
- Requirements
  - Bootstrap 4 navbar
  - Bootstrap 4 form controls
  - Center alignment (align the form to the center of the page)
  - Styled display message (change the background color of the message to light green with a 1px border of dark green
- Take a screenshot of the application running in a browser.
